### **Opening of Representative Office in the Republic of Korea**

NRS Corporation opened its Seoul representative office in Seoul city of the Republic of Korea on April 1, 2013.

Our company established "CALT Logis BUD Co., Ltd" by joint investment with three Korean companies in October 2012 and we have been preparing to build full-scale warehouses of dangerous goods at constant temperature and same warehouses at ordinary temperature at Busan New Port Ungdong Distripark. And we opened our representative office to strengthen our support system for building these warehouses of dangerous goods to be completed by January 2014 and to conduct market research of chemical goods and dangerous goods in Korea.

We will continue to endeavor to offer high quality international logistics service of chemical goods which is the same level as in Japan by coordinating closely with our Korean agents and our representative office in Korea.
